*For Barbara*

## *Foreword by Wolcott Gibbs*

NEW YORKER cartoons can be roughly divided into two classifications, which, back in the days when I was the most insanely miscast of an almost endless procession of art editors, were conveniently designated as "straight" and "nutty." The first of these was, and still is, pleasantly represented by Miss Helen Hokinson, whose suburban ladies are so plumply and engagingly drawn from life, and whose humor in general is based on the rather touching comedy of arrested development; her heroines, that is, are forever engaged in a struggle to preserve the innocent, undaunted enthusiasms of a long-ago campus in circles that are not precisely hostile to the Bryn Mawr ideal, but are nevertheless inclined to be somewhat detached and inscrutable about it. In a limited sense, since a stratum of Westchester is really an almost microscopic cross-section of America, Miss Hokinson can be described as a social critic, and her work simply as a remarkably acute editing and pointing up of the facts.

The other type of New Yorker art, rather menacingly displayed in the pages of this book, is harder to define, since it is less a criticism of any local system than a total and melodramatic re-arrangement of all life. Unlike the reportorial artist, whose scenes and personnel are ready-made, the man who draws pictures like those assembled here is obliged to create a nightmare landscape of his own and to people it with men, beasts, and even machines whose appearance and behavior are terribly at variance with the observable universe. He is, generally speaking, successful to the precise extent to which his creations seem peculiar, disturbing, and even outrageous to the normal, balanced mind. In my opinion, the subject of these notes—a man named Charles Addams—is one of the most outrageous artists in America in the sense that his work is essentially a denial of all spiritual and physical evolution in the human race. Some of this book is merely disconcerting—if, of course, it is no more than disconcerting for a couple in a hotel room to watch the sprouting of a pattern of knife points in the wall, unmistakably outlining a shrinking female form—but most of it is frankly devoted to man's crazy, triumphant return to the mud from which he came. The monsters in Addams' world are still in the minority—the movie audi-

ence still holds only one giggling pervert; only one child in the manual-training class is busy with a little coffin; few people have two heads, three arms, or but a single, centered eye; the inmates of that secret, black, and midnight manse are still a household somewhat set apart — but it is only too clear that actually these are the dominant strain, that somehow, as if God had shrugged His shoulders and given up the world, natural selection has reversed itself and presently our civilization will once again belong to the misshapen, the moonstruck, and the damned.

As Dorothy Parker once wrote in a foreword to a collection of Thurber's pictures, it is interesting, though not necessarily reassuring, to speculate about the lives of the characters in a cartoon before and after that instant, or series of instants, in which the artist has frozen them for our startled entertainment. In studying this book, for instance, the thoughtful reader may like to dwell on the possible future of the tiny chemist who has learned the awful formula that translates Jekyll into Hyde, or he may try to reconstruct the exasperating past that has somehow led a calm, pipe-smoking suburbanite to incinerate his wife on a pyre of cheerful autumn leaves, raked from his own front lawn. Certainly, he will wonder about the inhabitants of that crumbling Gothic pile known, at least to me, as the Old Charles Addams Place. What dark and shameful compulsion brought the proprietors together — the haggard, ruined beauty and the ignoble half-breed? What unspeakable rites united them, if wed they are at all? We know their little girl has six toes on her left foot, that her younger brother likes to mix his childish poison brews, and that their only playmates are bats and spiders and probably the Thing that has no face but wails and drags his chains at night. It is little enough, and we know still less about the shambling giant who ministers to their dreadful needs, except that he is apparently dumb and almost certainly a homicidal maniac.

In fact, we can surmise almost nothing about any of Mr. Addams' characters, beyond the single, captured, apocalyptic moment, and it seems a pity because they are obviously among the really rewarding people of our time. However, as Mrs. Parker was obliged to conclude about the Thurber men and their even odder mates, it is madness in the end to try to provide great works of the imagination with sane and detailed backgrounds. The recorded instance has to suffice, and here, for our sanity, perhaps it is just as well. To know, for instance, what the

servant in that doomed and dreadful house does on his nights off, when the crazy moon is full, is something I am content to leave to Mr. Addams and whatever Thing he calls his God. Yes, on the whole I think the glimpses he's allowed us are enough.

Finally, in answer to those who want to know what manner of man is responsible for the matchless depravity in these pages, I can only report that he seems to me very little different from my other friends—a little larger and more casually assembled perhaps, and, of course, somewhat set apart from them by his mysterious dealings in ancient cross-bows, articulated bones, and costly, buglike foreign cars. Of the morbid eccentricities that you have undoubtedly been led to expect, however, I'm sorry to say that there is scarcely any trace. It is true that once he gave my ten-year-old son a gleaming human skull, but this, I should say, was merely an example of his generous and perceptive spirit (it was clear that the child needed a skull beyond anything else at the moment in the world), and I doubt if he can be charged with any desire to add one more budding monster to his black domain. Indeed, considering the fact that his work has reached the point where it is sometimes used to diagnose incipient lunacy (the theory seems to be that if you think you can explain an Addams picture, the lunacy is no longer incipient), he is notably and almost disappointingly free from any interesting clinical symptoms of his own. Altogether, if you have to have the dismal facts, I'm embarrassed to say that as far as I can tell he is just a hell of a nice guy, whose habits are probably a good deal less sinister than yours or, for that matter, even mine.

*"Oh, my goodness, no! Just a water main."*

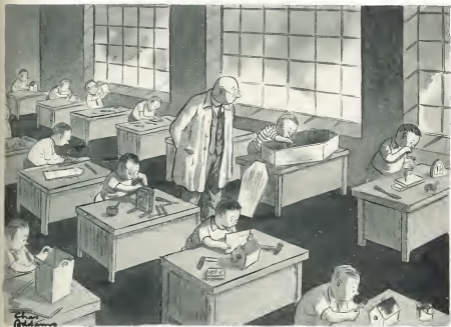

*"Now have this prescription filled and take as directed. Then, two nights after the first full moon, procure the left hind leg of a he-frog and a root of St. John's-wort . . ."*

*"Wait a minute, can't you? I've only got three hands."*

*"I know, but I don't go in unless he buzzes."*

*"Dr. Fairburn is going to tell us about some of his interesting experiences among the head-shrinking tribes of Ecuador."*

*"A cask of Amontillado, please."*

*"That stuff may be  
all right for you  
fellows, but I'd rather  
be safe than sorry."*

*"It's marvelous! All you do is add water."*

*"Just keep your shirt on. You'll see."*

*"Any children?"*

*"Another vanilla, Benny."*

*"Now, this may frighten you just a little bit."*

*"I tell you, Mama, the blood keeps going to my head."*

Chas. Addams

*"Well, dear, was it fun playing Indian?"*

*"This is your room. If you should need anything, just scream."*

*"May I borrow a cup of cyanide?"*

*"While you're here, there's a squeaky trap door I'd like  
you to look at."*

"Are you unhappy, darling?"

"Oh, yes, yes! Completely."

"Oh, it's you! For a moment you gave me quite a start."

"Well, he certainly doesn't take after my side of the family."

*"It's the children, darling, back from camp."*

*"Well, don't come whining  
to me. Go tell him you'll poison him right back."*

Chas  
Adams

*"Oh, I couldn't make it Friday—I've so many things  
to do. It's the thirteenth, you know."*

*"We've had part of this floor finished off for Uncle Einar."*

Chas  
Fidman

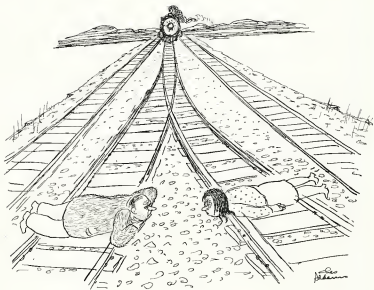

*"Listen! Was that a moan I heard?"*

*Suicide Pact*

*"Miss Osborne poses for subway posters."*

*"Don't feel badly, Nelson. With normal growth, you'll be in there next year."*

*"I hope you don't object to children."*

*"Everybody's certainly cleaning up these days."*

*"Excuse me, Walter, that's my cue."*

*"This is just a front, you understand. All I do, really, is  
slip sulfanilamide tablets into his drinking water."*

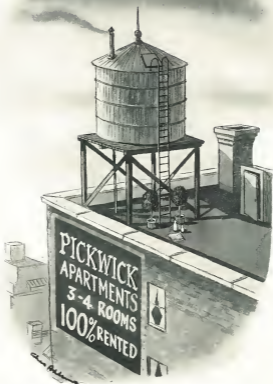

*"Oh, speak up, George! Stop mumbling!"*

*"O.K. now. You got it straight what you're supposed to do?"*

*"As a matter of fact, it's a rather amusing story. Do you remember last spring when Herbert was police commissioner during Boys' Week? . . ."*

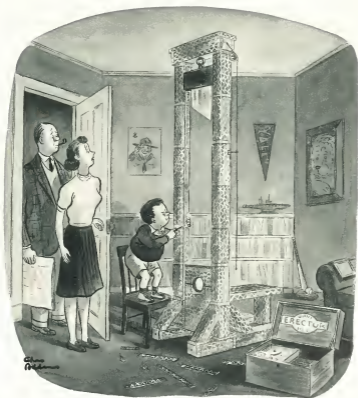

*"Now play dead."*

*"Do you smell someone burning?"*

*"I got it out of the refrigerator. Why?"*

*"I'm worried about him, Doctor. He won't eat anybody."*

*"... and so the poor peasant's daughter liquidated the handsome young prince, set up a people's government, and lived happily ever after."*

*"I'm at my wit's end, Doctor. We simply can't convince him that he isn't living underwater."*

*"Dwarf hair, bat wings, powdered black mamba... Quick, Miss Tonka!"*

Clay  
Anderson

"... and never, never go near a house with a  
well-beaten path to the door."

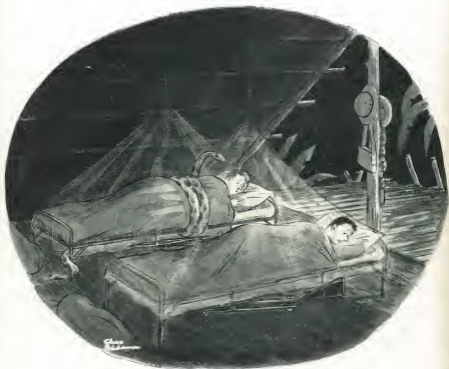

*"Ten o'clock and all's well. Yes, sir, and all's well, too, with that toothsome, savory, mild Royal George Snuff, made from the finest Old Dominion tobacco leaf. For a rewarding experience..."*

THE CREAKING SHUTTER

*"I wouldn't worry about it, Ed—probably something you ate."*

*"You must try not to worry, Dr. Perry is doing everything humanly possible."*

*"Now tell me, Doctor, just when did you first begin  
to notice this paranoia of mine?"*

"Now, let's just slip it on and see how it fits."

*"Scotch Tape."*

THE REMODELED HOUSE
